SUMARY

Experienced Software Developer with a focus on frontend technologies. Specializing in React, JavaScript, TypeScript, and NodeJS. Proven expertise in enhancing user interfaces, building core functionalities, and ensuring code quality. Proficient in Agile methodologies, committed to clear communication, and fostering a positive work environment.

WORK EXPERIENCE

Software Developer

Void Technologies   **October 2022 - Present**

- Spearheaded the development and maintenance of a collaborative coding platform, facilitating knowledge sharing among programmers.
- Implemented robust code review processes to ensure code quality and adherence to best practices.
- Collaborated with cross-functional teams to gather requirements, troubleshoot issues, and deliver software solutions on time.

Software Developer

World Wide Techies (TalentYard)   **April 2023 - September 2023**

- Developed a real-time chat application leveraging Firebase, enhancing user engagement and interaction.
- Built live streaming features using React components and Socket.io, improving user experience and platform versatility.
- Authored comprehensive READMEs and technical documentation, promoting better understanding and usage of the platform among developers.

Python Developer

NIIT   **January 2022 - April 2022**

- Designed and implemented Python scripts to automate system applications, increasing efficiency and reducing manual intervention.
- Developed GUI applications using Tkinter, improving user interaction and experience.
- Collaborated with the development team to identify and resolve system bottlenecks and performance issues.

PROJECTS

Carai

A p2p collaborative coding platform for programmers. • December 2023 - Present

- Developed the application's GUI using Next.js, enhancing user experience with onboarding screens, a code editor interface, and a tab management system.
- Designed and implemented a robust API with a microservices architecture for handling POST requests for code execution.
- Implemented a language-specific environment image system using Nix expressions for secure and efficient code execution.

EDUCATION

Bachelor of Science in Computer Science

LASU • Lagos State

SKILLS

- **Programming Languages: JavaScript, TypeScript, Python**
- **Frameworks: React, Node.js, Express, Next.js**
- **Databases: MongoDB, MySQL, PostgreSQL**
- **Frontend: HTML5, CSS3, TailwindCSS**
- **DevOps/Cloud: Docker, AWS**
- **Version Control: Git**
- **Methodologies: Agile development methodologies, Scrum**
- **Testing: Jest, Mocha**
- **CI/CD: GitHub Actions**
- **State Management: Redux, Zustand, Recoil**
